

INTIMATE CARE POLICY

	Sometimes students need help with personal care and hygiene.
	Staff at college can help students with this if they need it.
	Staff are checked and trained so that they know how to help in the right ways.
	Students and parents and carers can let staff know the best way to communicate with them.
	Staff will respect the privacy of the individual.

	Students and parents and carers can say what they would like staff to do and not to do.
	Students and parents and carers can say which member of staff they would like to help them with personal care.
	A record of any care carried out is kept by college.
	If an individual has concerns around the care they are receiving, they should speak to a member of staff.
	An individual can also speak to a member of the safeguarding team.
	Any concerns about a member of staff will be investigated.
